Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
"I want to reduce my debt and regain financial stability." "I don't know how to negotiate with lenders." "I need a practical solution to manage multiple loans."	"Will I ever be able to repay all my debts?" "Can I get a fair settlement offer from my lender?" "I need to understand my financial health better."
Rahul Sharma <i>Borrower Seeking Debt Relief and Financial Recovery</i>	

DOES

- Tracks monthly income, expenses, and loan repayments.
- Searches online for debt management and settlement advice.
- Compares repayment options before making financial decisions.

FEELS

- Stressed due to increasing financial obligations.
- Confused about the best debt repayment strategy
- Worried about overdue payments and loan defaults.
